Dover, DE 19903

RE: Middlesex Beach Association  
Bridge Rd. & Route 1 Intersection

Dear Mr. Littleton:

Middlesex Beach Association Board of Directors met on Saturday, June 10, 1995 and was brought up to date on the discussions you and Mr. Joe Reardon have had regarding the Bridge Rd. & Route 1 Intersection.

The Board request that you commence an assessment of this intersection as soon as possible (according to Mr. Reardon this would be June 24). Furthermore, the Board supports doing whatever is necessary in order to physically change the intersection, i.e., closing to cross traffic, left only turn or any other solution which you may develop as a result of the assessment.

We appreciate your efforts on behalf of Middlesex Beach Association and look forward to reviewing the results of the intersection assessment as soon as possible, in order to avoid any injury to pedestrian or auto traffic.

Sincerely,

  
James G. Morgan  
President

cc: Board of Directors  
J. E. Reardon
