Dear Representative Bunting:

I am writing on behalf of Middlesex Beach Association to urge your support for the appropriation of sufficient funds to facilitate the installation of a pedestrian island at Highway One and Bridge Rd. This particular intersection, as you may be aware, was the scene of a traffic fatality in 1994.

Our community has been working with the Department of Transportation since the fatality in 1994; however, to date have not been able to accomplish the installation of this pedestrian island due to insufficient funds. Your assistance would be greatly appreciated by our community and will go a long way toward preventing future fatalities.

Sincerely,

James G. Morgan
President
